# Workshop and Seminar Virtual Academy

## INVITATION

The Working Group on Virtual Academy of FIG Commission 2 (Professional Education) will organize a Workshop on June 5-6 and a Seminar on June 7-8, 2001. The theme of the workshop and the seminar is Virtual Academy for education of surveyors.

The main issue of the workshop and the seminar is to get information and to discuss about techniques, tools and experiences in the field of computer assisted learning, distance learning and web-based educational systems.

The workshop consists of interactive sessions, where the participants have an opportunity to demonstrate their own web-based educational material.

The seminar consists of lecture sessions, discussions and demonstrations of web-based educational applications.

We invite FIG members as well as all who are interested in the theme Virtual Academy to attend the FIG workshop and seminar.

## The main topics of the WORKSHOP:

- ◆ **interactive working with web-based educational applications**  
exchange of experiences by designing and producing of educational applications
- ◆ **preparing a presentation for the seminar**

## The main topics of the SEMINAR:

- ◆ **web-based educational applications**  
what is available, their useability / user interface, technical problems
- ◆ **demonstration of web-based learning system**
- ◆ **pedagogical issues in web-based learning applications**
- ◆ **lecture material for web-based learning applications**  
what kind of lecture material is suitable, tools for producing lecture material
- ◆ **virtual academy**  
what it means, techniques, co-operation by producing learning material
- ◆ **FIG educational database**  
a tool for a uniform curriculum in the future

## PRACTICAL INFORMATION

### Venue

The Seminar will take place in The Lifelong Learning Institute Dipoli of Helsinki University of Technology in Espoo. The Lifelong Learning Institute Dipoli organizes courses and professional development programmes in fields within the expertise of the university.

The Dipoli building is one of the architectural monuments of Finland and is situated on the university campus. The Dipoli building was designed by architect Reima Pietilä in 1966 and serves now as a modern technology training and congress centre. The campus is close to the centre of Helsinki (15 minutes by bus).

The nearest hotel is located just 150 meters from the Dipoli building.
